## National Faculty

### Catherine Redford

Catherine was brought up in England, a middle child who learned to knit and sew at an early age. She and her husband moved to Naperville, Illinois in 1995 and she discovered quilting in 1998. She is a member of her local guild and co-founder of the Naperville Modern Quilters Guild. Catherine has appeared on Quilting Arts TV and is a regular contributor to *Modern Patchwork* magazine.

Catherine believes we all have an innate need to create, and quilting is her outlet of choice. Catherine believes quilters have the right to choose the elements of the craft that bring them joy. She encourages students to try all the processes involved in finishing a quilt, but accepts that there will be some who find joy in making tops by machine while others enjoy handwork and still others love to machine quilt. That's OK! That's where teamwork comes in and there's a whole community of quilters out there willing to help.

### Annette Ornelas

Southwind Designs, which began in 2000, was developed to offer students unique quilting patterns that were easy, fun and could be done by any level of quilter. Owner Annette Ornelas wanted to teach quilting in a way that would put her students at ease in a relaxed atmosphere and provide a new spin on traditional patterns and quilts.

Since then, Annette has produced over eighty patterns and two books, one of which, *Peeled-Back Patchwork: Curves without Piecing*, was published through AQS in 2004. Her current book, *Curves without Piecing*, is an AQS booklet published as part of their *I Love to Quilt* series. Annette also developed the Dimensional Curves technique to simplify the process of piecing curved quilt block shapes for her students.

Annette was born in Germany and currently lives in Fayetteville, North Carolina, with her husband and their three dogs.

**SU-7 Walking Foot Quilting**

All day Sunday

We start with a brief discussion of preparing your tops for quilting including marking and basting. **Annette Ornelas**

**Lecture and Trunk Show**  
**Dimensional Curved Piecing or Peeled-Back Patchwork**

7:00 pm Saturday

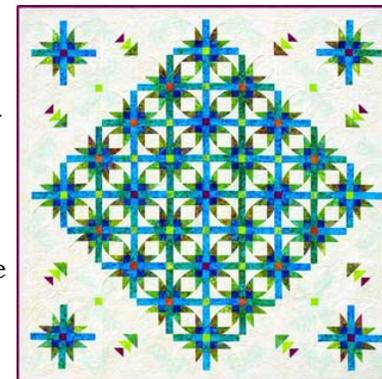

Dimensional curved piecing or “peeled-back patchwork” is fast, fun and so much easier than it looks. Quilts may look complex, but they all share a dimensional secret, which makes piecing curves very easy. Through numerous original quilts and examples, everyone can see how dimensional curves actually work.

**SA-2 Mexican Star Dance**

All day Saturday

Mexican Star Dance is an expanded version of the popular "Mexican Stars" pattern. The dimensional piecing technique consists of layering and inserting folded fabric pieces into the seam line of a pieced unit or block. When the bias edge of a folded square is turned back and stitched down, a curve appears. The curved edge is then secured by topstitching close to the fold. Pattern required, \$10, class supply list will have details.

**SU-8 Midnight Flowers**

All day Sunday

Easy strip-piecing with dimensional curves. This table runner can be made in two sizes, short—17” x 31” or long—17” x 46”. Pattern required, \$8.50, class supply list will have details.
